All the Bold and Beautiful women from Union Territories of the age category 18 - 30 are welcome to participate.

GAIA NEEDS TO BREATHE

### **GAIA NEEDS TO BREATHE**

The statistical researches done in the recent years are coming up with a bunch of shocking facts about plastic waste accumulation in the world. Some of those facts include the following:

1. Around the world, one million plastic drinking bottles are purchased every minute.
2. Up to 5 trillion single-use plastic bags are used worldwide every year.
3. In total, half of all plastic produced is designed to be used only once — and then thrown away.

These are just few facts about the plastic waste accumulation and plastic pollution. The effects of plastic pollution is so huge. Some of the major effects of plastic pollution include the fact that it will upset the food chain, it kills animals, it causes land, air, oceanic pollution and so on.

Plastic waste is now so ubiquitous in the natural environment that scientists have even suggested it could serve as a geological indicator of the Anthropocene era.

The Miss Union Territories 2020 team identifies this crisis as a very serious social issue on which quick counter action is required. And we are attempting to do our part for this cause. We are campaigning to create a plastic free society. And as a first step to this Nobel cause, we are initially implementing our action plan in the beautiful land of Andaman and Nicobar Islands which is also our event finale destination.

## SELECTION PROCESS
